OBJECTIVE

Software Engineering student with a strong foundation in core computer science concepts and good knowledge of Data Structures. I have experience building projects and writing clean, structured code. Looking for an opportunity to enhance my skills and contribute to real-world applications in a professional environment.

EDUCATION

- **Pranveer Singh Institute of Technology, Kanpur, India**

B.Tech in Computer Science and Engineering | SGPA: 7.63

Oct 2023 – 2026

- **Maharana Pratap College of Engineering, Kanpur, India**

Diploma in Civil Engineering (Polytechnic) | Percentage: 74.5%

Oct 2020 – Sept 2023

PROJECTS

- **AI-Based Humanoid Robot (Final Year Team Project – Ongoing)**

Tech Stack: Python, OOPS, Raspberry Pi, Sensors

- Designed modular software components using object-oriented programming principles.
- Implemented logical flow control for input handling, decision-making, and hardware interaction.
- Worked on system-level integration, testing, and debugging to ensure reliable real-time behavior.

- **IT Ticket Tracking System**

Tech Stack: JavaScript, Node.js, Express.js, REST APIs, MongoDB

- Developed a service-desk style application to manage IT support tickets with clear workflow handling.
- Implemented ticket creation, priority levels (Low / Medium / High), and status tracking (Open / In Progress / Closed).
- Built backend business logic and RESTful APIs using JavaScript, applying OOPS principles for modular code.

- **YOLOv5 Object Detection System**

FastAPI, PyTorch, YOLOv5, OpenCV, React, Vite

- Developed a full-stack object detection system enabling real-time detection on 100+ images and live camera streams.
- Integrated YOLOv5 with PyTorch and OpenCV achieving 30+ FPS and 95% accuracy.
- Built scalable backend APIs using FastAPI and optimized inference performance.

SKILLS

Technical Skills

- **Languages:** JavaScript, TypeScript, SQL, Python
- **Frontend:** HTML, CSS, Tailwind CSS, React.js (Basic UI Development, API Integration)
- **Backend:** Node.js, Express.js, REST API Development, JWT Authentication, Logging & Data Handling
- **Databases:** MySQL / PostgreSQL, MongoDB (NoSQL), Query Optimization, Indexing
- **Concepts:** Data Structures & Algorithms, OOP, DBMS, Operating Systems, System Design Basics
- **Tools:** Git, GitHub, Postman, Docker (Basics), AWS (Basics), CI/CD (GitHub Actions)

Soft Skills

- Problem Solving, Logical Thinking, Analytical Skills, Team Collaboration, Time Management, Clear Communication

CERTIFICATIONS

- Understanding Google Cloud Security and Operation (Simplilearn)
- Blockchain and the Internet of Things (ThingQbator)
- Object Oriented Programming using Python (Infosys Springboard)
- Introduction to Cybersecurity (Cisco Networking Academy)

ACHIEVEMENTS

- **LeetCode** | 700+ problem solving @mohdsahil2323
- **HackerRank** | 5-Star Problem Solving | 4-Star SQL @mohddsahil2004
- **Adobe India Hackathon 2025** | Qualified Round 1 | National Level Hackathon
